

**NOTICE OF UPCOMING PROJECT
FIRE STATIONS NOS. 15 AND 17
BID FILE NUMBER: 2480**

Plans and Specs are now available for the subject project.

PROJECT SCOPE

Work under this contract provides for the construction of Fresno Fire Department Fire Stations #15 and #17 consisting of the following project components:

Construction of two one-story reinforced masonry/steel stud framing slab on grade fire stations with apparatus bay and living quarters, all mechanical and plumbing systems. Construction of on-site and off-site utilities, AGT fuel tanks, site paving, site concrete work, storm drains, curbs, walks and all other related civil site work. All building and site electrical services, communication, and site lighting systems. The work at fire Station 15 includes a shallow on-site ponding basin with wrought-iron fencing. The work at Fire Station 17 includes fencing and providing off-site landscaping to blend in with the fire station.

The Construction Allocation for the complete project is \$5,562,000.

The two fire stations are being bid as a single project under a single contract. There will not be a split award.
